9.6 Candidates who are teaching staff at the Polytechnic Institute of Portalegre are exempt from submitting the documents in their individual file and must state this in their application form.

9.7 Failure to submit the documents required under this notice or their submission after the defined deadline will result in exclusion from the competition.

9.8 In the application stage, however, the presentation of the documents referred to in paragraphs a), b) and c) of 9.3 of this notice shall be waived, provided that the applicants declare in the application, on an honorary basis, in separate paragraphs, the precise situation they are in regarding each of these requirements.

9.9 Failure to present the documents related to the *curriculum vitae* submitted by the applicant implies the non-valuation of the evidence they should prove.

9.10 The presentation of forged document determines the immediate exclusion of the competition and the notification to the competent entity for the purposes of criminal proceedings.

10. Selection methods: The evaluation method to be used is curriculum evaluation.

11. Candidate selection and ranking criteria:

11.1 Pursuant to the provisions of Article 15-A of ECPDESP, the criteria for selecting and ranking candidates, in order to ascertain the merit of candidates for the duties to be performed, are as follows:

- a) Technical-scientific and professional performance with a relative weight of 40%;
- b) Pedagogical capacity with a relative weight of 40%;
- c) Scientific-Pedagogical Project with a relative weight of 10%;
- d) Other activities relevant to the mission of the institution with a relative weight of 10%.

11.2. The evaluation of the curriculum path focuses on the relevance, quality and timeliness of the activities indicated in the *curriculum vitae* with a higher value to be given to the last five years, in each of the components set out in the points above.

11.2.1 The period of five years referred to in the previous paragraph may be extended by the jury, at the applicant's request, when it is based on suspension of scientific activity for socially protected reasons, namely on grounds of parental leave, prolonged serious illness, and other situations of unavailability for work legally protected.

11.3 In the evaluation of technical-scientific and professional performance, the following parameters are taken into consideration by the jury: the coordination/co-ordination of research projects with external evaluation and funding; participation in national and international research project teams with external evaluation and funding; evaluation of national and international research projects; book publishing, technical-scientific book chapters, scientific articles in scientific journals, editing/co-editing of multi-authored technical-scientific work, participation in editorial boards of national and international scientific journals, publication of technical-scientific articles in proceedings of national and international congresses with peer review, coordination of the organization of international technical-scientific congresses/seminars, participation in scientific committees or organizers of international technical-scientific seminars, coordination/sub-coordination of a Research Unit evaluated by FCT (Foundation for Science and Technology) with Very Good or Excellent, integration of research units funded by FCT rated Very Good or Excellent, the orientation co-orientation of PhD Theses, the orientation/co-orientation of Post-doc works; the orientation/co-orientation of Master's Projects/Dissertations/Internships; the integration of doctoral thesis juries, Specialist Title, Master's Dissertation, member of juries of other academic exams of competitions of polytechnic or university teaching staff; awards and distinctions; other activities that the jury deems relevant.

11.4 In assessing pedagogical capacity, the following parameters are taken into account by the jury: valuing the quality and extent of pedagogical practice, teaching experience in polytechnic and/or university education; the coordination and teaching of curricular units; the training activity in accredited short programs/courses; the preparation of manuals, textbooks and other teaching support manuals; the elaboration of curricular unit programs; supervision and monitoring of internship students; chairing/coordinating examination panels; organization of national and international educational events; participation in training events/training courses; the evaluation of teacher quality performance; and other activities relevant to the pedagogical performance that the jury deems relevant in the disciplinary area, or areas related to the one in which the competition is opened;

11.5 In the evaluation of the Scientific-Pedagogical Project, the jury will take into account the potential contribution of the submitted document to the scientific and pedagogical development of the subject area of the competition (the evaluation of the proposed scientific-pedagogical project must take into account the scientific pedagogical and organizational objectives, evidenced considering the area of specialty of the application and the respective framing of the proposals in the mission of the institution).

11.6 In the evaluation of the other activities relevant to the mission of the Polytechnic Institute of Portalegre, the following parameters are taken into consideration by the jury: valuation of the performance of HEI positions and/or academic management activities; participation in committees/working groups with reports prepared; participation in juries and student admission selection processes; provision of services to the community; participation in self-assessment processes; coordination/integration of evaluation and accreditation teams of higher education courses; coordination of projects relevant to the scientific area in which the competition is open; other coordination duties and/or activities that the jury deems relevant.

12. Pursuant to paragraphs a) and b) of article 23 of the ECPDESP, the selection board may request candidates to submit additional documentation related to the curriculum submitted and may hold public hearings, under equal circumstances for all candidates.

13. Final Classification:

13.1 Each candidate's final quantitative classification will be expressed on a scale of 0 to 100 points and results from the application of the following formula:

$$CF = (DTCP * 0.40) + (CP * 0.40) + (PCP * 0.10) + (OA * 0.10)$$

In which:

DTPC - Technical-Scientific and Professional Performance Component

CP - Pedagogical Capacity Component

PCP - Component referring to the Scientific-Pedagogical Project

OA - Component for Other Relevant Activities for the Polytechnic Institute of Portalegre Mission.

13.2 Candidates who obtain a final score equal to or higher than 50 points are considered to be approved in absolute merit.

13.3 All results will be rounded to one decimal place.

14. Competition Jury:

14.1 The competition jury has the following composition:
