

# Curricular Unit Form

Updated On	2023/10/31											
Curricular Year / Period	2023/24 / S1											
Course	Pre-School Education											
Curricular Unit	Observation and Cooperation Practice in Kindergarten and Daycare											
Language(s) of Instruction	Português ---											
ECTS/tempo de trabalho (horas)	ECTS	Total	Horas de contacto semestral									
			T	TP	PL	S	TC	E	O	OT	EC	
	8	200				30		60	60	10		
T - Theoretical; TP - Theoretical and practical; LP - Laboratory Practice; S - Seminar; TG - Tutorial guidance; FW - Fieldwork; T - Training; ; EC - Clinical teaching; O* - Other hours typified as Clinical Training under the Directive 77/453/EEC of June 27, adapted by Directive 2005/36/EC.												
Teacher in charge (GDPR consent)  [complete name, email]	Amélia De Jesus Gandum Marchão / ameliamarchao@ipportalegre.pt											
Prerequisites  [Curricular Units that must precede and specific entry competences]	Not applicable											
Learning outcomes  [Description of the overall and specific objectives] [Knowledge, skills and competences to be developed by students]	To build theoretical and practical knowledge of observation in early childhood education in the framework of action research. To build knowledge about kindergarten contexts - nursery and kindergarten To know the pedagogical and curricular foundations of educational action in contexts of early childhood education. To know variables of educational action in early childhood education: space and time To cooperate with day care and kindergarten education team. To mobilize knowledge acquired in the degree in EB and UC of MEPE and apply them assertively in the context of day care and kindergarten. o affirm a critical, reflective and ethical attitude of the kindergarten profession											
Sustainable Development Goals												
Syllabus	1. The observation and the cooperation as facilitators of knowledge construction: The observation as a scientific and investigative practice in the teaching profession: the observation plan (observation field, objectives, data collection strategies, means, information processing, analysis of the data). 2. The contexts of nursery and kindergarten: fundamentals of nursery and kindergarten pedagogy; curriculum guidelines and projects; the space and the educational time											
Teaching methodologies (including assessment)  [Specify the types of assessment and the weights and evaluation criteria]	<b>1 - Teaching methodologies</b> The methodology focuses on a cooperative interactive dynamic working model and action research procedures. At the Seminar, teachers explore with students the contents and encourage them to research and reflection focused on the contexts where students are integrated. All students spend half of their internship hours in day care and half in kindergarten. Plans, collects data, analyzes and reflects, develops situations of professional experimentation in cooperation.  <b>2 - Period assessment</b> The evaluation is systematic and continuous and includes: the work performed in the ESECS sessions (observation plan, reports, reflections for and on the action) considers the clarity, analysis, criticism, scientificity in the operationalization and interpretation of data - weighting 4; qualitative assessment of performance by the F. Laevers adult engagement scale criteria (by the cooperating educators and coordinating Department Preschool education) - weighting 3. The final evaluation is the responsibility of the ESECS teachers and integrates the final evaluation of SPI, FC = 3xP + 2FR / 5
